A GENTLEMAN, a Presbyterian Minister
A desires a situation as Teacher in some high
school. Qualified to teach the modern banguages. Address this office.
June 30 1896-4t.

THE above cut represents fibree of the
Buckle Tie as they appear of a bale of estion.
The hoop for the button is punched with two
holes at one end and fifteen at the other. The is and
has only to be drawn tight, the holes in the two ends
to be brought together,—the two tole end on topand the button inserted. One button will answer,
but it is better to insert two.
With the Buckle Tie one end of the hoop is fastened to one section of the Buckle, the other end is
inserted in the other section, and simply shoved
introvely it under the other end as long as there is
any slack. A bite on the buckle holds it securely to
to its place.

The hoops are painted to prevent rust, and cut in
lengths of it, 101 and 11 are sometimes required
for large bales. The buckles are fastened to the
hoops, the buttons will be put up in small boxes.

The Weight is About 10 Pounds to the Bole of

STRUCTURES,

AS DESCRIBED

Ship Refuge, New Orleans, July 7, 1859.

H. Fassmann, Esq. Orleans Cotton Press:
Sin: In January last I received from your Press 1989
bales of cotton, of which about 1999 were recompressed and bound with your new "Iron The." I can safely affirm that the cotton so bound was received in better order than it generally comes from the Presses, that it stowed better, and enabled the ship to carry more than on any previous voyage.

The cotton when discharged from the ship in Liverpool, was in better order than the rope bound cotton; it is highly preferable for a ground tier, as dampness from the ballast has no effect upon it, for it is well known by practical men that dampness will rot the rope bound. I can confidently recommend your "from Tie," as I took this lot for an experiment and carefully watched it both in loading and discharging.

The Voyage Respectfully. eharging.
I am Sir, Yours Respectfully,
JOHN HOWARD, Master,

The undersigned, Fire Warden and Fire Inspector of the New Orleans Insurance Companies, are of opinion that the Iron Tie affords greater protection against loss in case of fire than the old style of baling with rope.

OFTHE Throat and Lungs. HURLEY'S POPULAR WORM CANDY.
As this is really a Specific for Worms, and
the best and most palatable form to give to
children, it is not surprising that it is fast tak-

ing the place of all other preparations for worms—it being tasteless, any child will ORIENTAL PEARL DROPS. For beautifying the Complexion, effectually emoving Tan, Freekles, Blotches, and giving the skin an elegant smoothness not easily at-tained by any other. Its use among the ladies of fashion in the East, gives it a character for

Upon-Nothing More Reliable
